

TURN YOUR EARTH DRILL INTO A CEMENT MIXER

Accessing a traditional cement mixer when working over rough terrain can prove difficult. Auger Torque's Drill/Mix solution changes all of this.

Available with a 180 litre capacity, the Auger Torque Mixer Bowl attaches quickly and easily to our Earth Drills. Skidsteer and Excavator mounting brackets are available.

The Auger Torque Mixer Bowl is a great match with our Mini Loader Earth Drill range.

Mixing in inaccessible areas where stand alone machines are not practical has never been easier!

Visit the Auger Torque website to watch a demo

Ideal for fencing contractors

With the aid of the Mixer Cradle Hitch the Auger can be quickly removed and the Mixer Bowl attached and locked in place with the standard Auger Pin. After the concrete has been laid the Auger can be replaced for the next post.

Drill Mix Fill with Skidsteer Loader

Drill Mix Fill with Excavator

Specifications
