

## CONVERT YOUR EARTH DRILL INTO A HANDY LOG SPLITTER

It's quick and efficient. The Auger Torque Log Splitter makes light work of processing and recycling those fallen trees into manageable pieces, ready for recycling.

### CONICAL PROFILE

The conical shape quickly works its way through, splitting the timber.

### SELF GUIDING

The self-guiding threaded body engages with the timber, drawing the Log Splitter into the log.

### NO MAXIMUM LOG LENGTH

The Log Splitter can be repositioned to continue the split along the whole length of the log.

### SINGLE FIXING POINT

Securely fix to the Log Splitter to your existing Earth Drill.

### COMPACT AND ROBUST

A solid one piece construction for a sturdy, reliable tool.
